

Astra Nevis Recliner / RENE01

Astra Nevis is a manual recliner designed for healthcare, maintaining the perfect balance between modern aesthetic and ease of operation, with no compromise on comfort. Nevis can also be used as a portering chair.

Standard Features

- Simple footrest operation using large lever, back operated by the finger pull located on the outside arm, for both carer and patient operation
- Portering handle allows for ease of patient transfer
- Independent back and footrest movement for personalised comfort
- Soft, adjustable polyurethane headrest (5 x 25mm increments)
- Postural support back with sprung seat for added comfort
- 4 x 100mm heavy duty castors for manoeuvrability (lockable), with 120mm clearance for hoist access*
- Easy clean polyurethane arms for infection control
- Maximum load 220kg (35st/500lbs)
- Recline angle 130° (full recline position)

Optional Features

- Anti-pinch seat cover
- Central locking brake system (on rear castors)

* From floor to underside of arm

Dimensions

*When headrest is extended

3 R's

Teal is committed to continually improving the sustainability of all environmental aspects within our business.

To meet both international standards and our own environmental targets we apply the three R's principle

Reduce, Reuse and Recycle.

Whilst recycling is the element which receives the most exposure it is actually the last option available and should never be the prime target in anyone's battle to reduce waste.

It is our duty as individuals and as a company to initially attempt to Reduce usage. Then we should look to Reuse wherever possible and finally, only after these two processes have been exhausted, should we consider Recycling.

Life cycle understanding

Waste elimination

Recycled content innovation

End of life solutions
