Solutions for Challenging
Environments

Product Update 2019

“innovation through collaboration”

teal

Welcome to the Teal Challenging Environments Product Update detailing innovative new solutions including a new Roku® 'family' with the addition of the multi-environment Roku® Keata chair and Roku® Asuka, an organically shaped soft seating range.

Four new soft seating ranges, including the dynamically styled 'Jem', new 'Flex' soft foam shapes and 'Insight Edge', a new full visibility bedroom range.

Based on good design, our innovative, class leading products help to transform environments and create bright, contemporary and non-clinical interiors that complement the latest service user led design thinking.

Made by Teal in the UK.

Case Study:

Ribblemere Perinatal Unit, Chorley

Developed by Lancashire Care NHS Foundation Trust, Ribblemere Perinatal Unit is a pioneering £1.5m purpose-built facility in central Lancashire providing inpatient accommodation to mothers and babies.

Helping to create a sense of calm and space, the furniture supplied by Teal is appropriate for both adults and children, co-ordinating with the pastel colour scheme of the unit's domestic, non-clinical interior.

options & standard features

Plus+ Complete upholstery option

Upholstered products are available with sewn in seams, creating a searchable seat area to prevent concealment and for ease of cleaning.

Weighting options

Products are available with concealed weighting options to limit misuse, increase stability and to maximise safety.
(Note: Medium weighting = +20kg, Heavy weighting = +40kg)

Anti-ligature

Products designed for enhanced anti-ligature healthcare environments where there is risk of self-harm.

Difficult to pick up

Flowing design means many products have been designed to make them difficult to pick up, with rounded corners and smooth lines.

Security screws

Enhanced mental health (M) and Extreme environment (X) products are fitted with non-retractable security screws, no visible staples and no metal back tacking for added safety.

seating options

Our two challenging behaviour seating specification options are identified by the M and X symbols and can be found throughout this brochure. The diagrams below illustrate the differing specifications.

Features

Enhanced Mental Health

Solid Birch frames with boarded plywood panels; ply underside and seat platform

- Non-retractable security screws and bolts

Extreme Environment (X)

Options

Additional weighting options
(medium and heavy)

SSRA02X / SSRA03X

Roku® Asuka completes the new Roku® family, with the introduction of a 2.5 and 3.5 seater organically shaped sofa range, designed for multi-use environments such as lounge, waiting and reception areas including acute adult and CAMHS units.

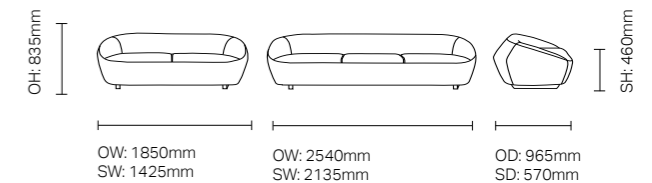

With low-back design and generous seating area Roku® Asuka features a fully sealed single piece seat and boarded underside and a low overall height to ensure clear lines of sight for care staff.

Complete upholstery, fully sealed single piece seat to prevent concealment and for ease of cleaning.

No visible staples or metal back tacking.

Flowing design with rounded corners, difficult to pick up and grasp, maximising safety and minimising misuse.

SSRA02X Roku® Asuka 2.5 Seater Sofa
SSRA03X Roku® Asuka 3.5 Seater Sofa

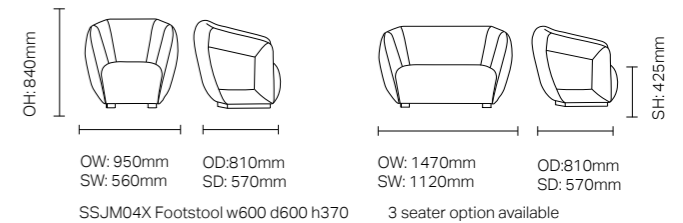

SSJM01X Jem Armchair SSJM02X Jem 2 Seater Sofa
SSJM04X Jem Footstool SSJM03X Jem 3 Seater Sofa

Jem combines extremely robust construction with modern statement design; the angular lines and dynamic styling add interest to any day space.

Generous proportions give individuals a sense of personal space and the addition of the matching footstool creates a comfortable place to lounge.

With complete upholstery for ease of cleaning and extreme specification ensuring safety and security, Jem is suited for multi-environment use, including CAMHS and young adults.

Tima

SSTM01 / SSTM02

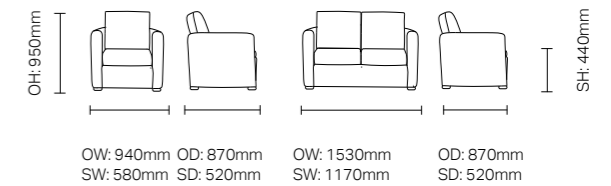

Tima lends robust design to contemporary appeal with supportive, mid-height back, wide tapered arms, deep filled comfort cushions. The generous proportions of the seat offer a deep and supportive sit. Available with stable, low height block feet in a choice of finishes.

Specification options to suit the environment standard, M, fully boarded X specification with non-retractable security screws, no visible staples or back tacking.

- SSTM01 Tima Armchair
- SSTM02 Tima 2 Seater Sofa
- SSTM03 Tima 3 Seater Sofa

Options

- Weighting options (medium and heavy) to limit misuse, increase stability and maximise safety
- Fixed seat cushion option
- 3-seater option available
- Solid wood glides with stain options

Suki 2-Seater

TSSU03

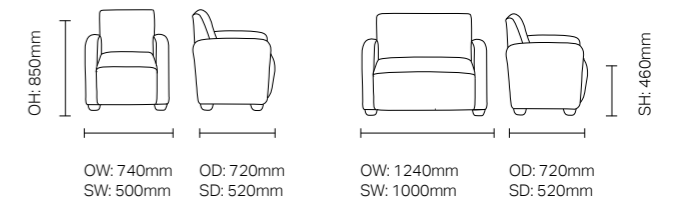

A new addition to the Suki family is a compact 2-seater, ideal for interview rooms or smaller lounge areas. A fixed waterfall seat cushion and low, solid security block feet help create a contemporary feel.

Available in standard, M or X specification options

TSSU03 Suki 2 Seater Sofa
TSSU01 Suki Tub Chair

Options

- Complete upholstery with fully sealed seat to prevent concealment
- Piping and buttons
- Leg stain options

Idro

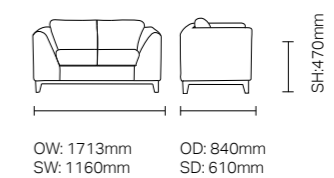

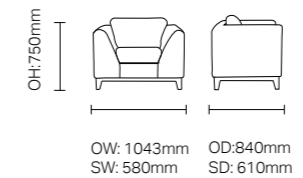

LSID01M / LSID02M

Idro blends contemporary styling with comfort to create a distinctive soft seating range with show wood underframe.

Ideal for low risk environments, with part plywood reinforcement up to M specification available.

LSID01M Idro Armchair
LSID02M Idro 2 Seater Sofa

Flex Lounger

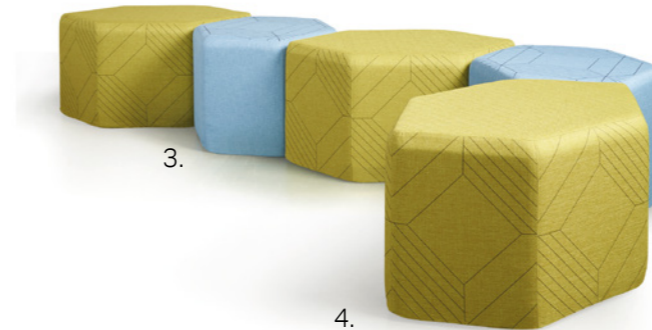

1.

2.

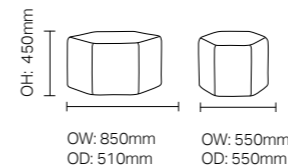

FSFL16 -21

1. FSFL16* Flex Rocking Lounger
2. FSFL17 Flex Rocking Lounger Footstool
FSFL18 Flex Lounger (not pictured)
3. FSFL19 Flex Hexagon
4. FSFL20 Flex Wide Hexagon
FSFL21 Flex Large Hexagon
(not pictured) w1200 d510 h450

3.

4.

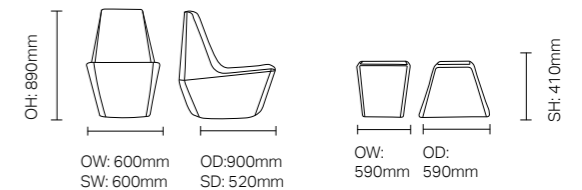

Lightweight, safe additions to the popular Flex foam range with the introduction of new organic and sophisticated shapes. Softer, tapered edge designs and new hexagonal shapes offer choice and variation, with anti-vandal options available.

Flex Foam Rocking Lounger

Soft foam rocking lounger with gentle, calming motion and matching footstool. Ideal for lounging, gaming, relaxation and de-escalation.

Flex Hexagons

Modern, fun additions to our Flex foam range, designed to appeal to CAMHS, young people, autism, learning disabilities, seclusion zones and wider healthcare settings such as hospital waiting areas, corridors and paediatrics.

For full Flex product range, visit our website teal.co.uk

* FSFL16 includes a plywood base. All other Flex models are 100% foam.

Standard wood finishes:

Options

- Wardrobe available with full/half width clothes hanging space or shelved option
- Coloured back panel and finish options
- Flat top option
- Other finishes to special order (subject to minimum order quantity)
- Built-in safe/TV/lockable cupboard
- Shelved wall unit (300/400/500mm)

Surrey Bed

BDSU33

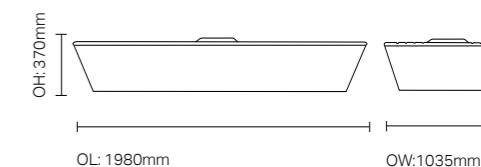

Options

- Free standing central version or fitted to wall
- Enclosed underside option to prevent misuse and concealment
- Inset headboard
- Armouren™ or KYDEX finish

Surrey provides enhanced safety and security, whilst unique design features ensure infection control standards and manual handling issues are further reduced.

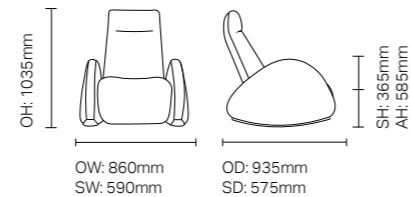

- Durable MDF vinyl wrapped soft edge top (25mm)
- Channelled platform allows easy cleaning and air to circulate under mattress
- Sloping sides enable staff to work closer to the bed/service users to get out of bed easily
- Waterfall edging around platform/base prevents fluid ingress and improves cleaning
- Integral mattress retainers
- Standard finish Pippy Oak (vinyl wrapped & laminated)

Jetson Sensory Motion Chair

Jetson is a generously proportioned, comfortable, contemporary rocking chair suitable for use in low to medium secure units, with increased arm height for enhanced comfort. Jetson has a gentle rocking base and soft upholstery.

- Gentle, calming rocking action for relieving tension
- Contemporary styling for the modern care facility
- Stops quickly on its own
- Sturdy construction
- Difficult to pick up
- Suitable for multiple areas including autism, learning disabilities and rehabilitation within therapy and sensory areas
