Roku® features durable polyethylene construction with integral UV stabiliser to reduce colour fade in outdoor locations. All items can be floor fixed. Optional drain hole and multiple weighting options available.

Test standards

All moulded Roku® products are compliant with UL94 HB standard for flammability.

Upholstered seat and back pads meet BS7176-2007 Source 0, 1 and 5.

All mattresses meet Crib 5. Crib 7 Option available.

All foams are Combustion Modified High Resilient fire retardant (CMHR).

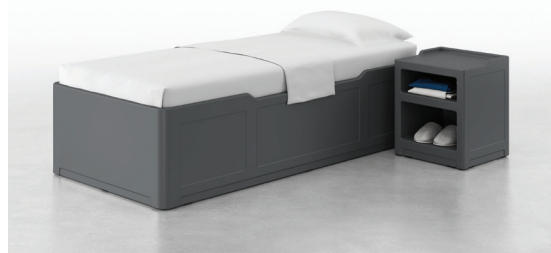

Manufactured under ISO 9001 Quality Management System.

Limited lifetime warranty

Limited lifetime warranty against manufacturing defects*.
To comply with the warranty always follow the manufacturer's guidance for cleaning and maintenance.

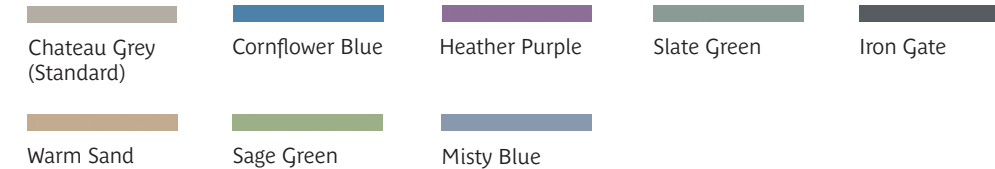

Roku® is rotationally moulded and changes in temperature may cause temporary changes in the shape of the product. Roku® may also display minor surface ripples which will not affect the performance of the product.
