NHS Scotland Furniture and Associated Services NP785/19

teal

At Teal we are committed to providing solutions that help to address many of the difficulties faced in the daily management of mental health services and other challenging environments.

Working with key stakeholders our focus is on **innovation through collaboration,** and this insight helps us to continuously drive improvements in both product design and service delivery.

Our person-centred, class leading products help to create non-clinical and calming environments, which aid recovery for service users, whilst also reducing risk and ensuring the safety of care providers.

Our unique designs provide **a new angle on mental health furniture** – fusing strength with style and innovation.

Teal LifeCare collections are designed to meet the specific requirements of a broad spectrum of challenging environments, ranging from high and medium secure forensic services through to rehabilitation, step down and special educational settings.

teal LifeCare

We have solutions in place to address all levels of risk, ensuring safe and appropriate design solutions for service users through their care pathway, on their journey to rehabilitation and recovery.

About Us

Our ethos is innovation through collaboration, a partnership that links our design-led, class leading products with professionals within mental health services and other challenging environments.

Teal is the healthcare division of **The Senator Group** – the largest manufacturer of commercial furniture and workplace solutions in the UK and the leading investor in Research, Development and Design. Exporting to over 70 countries, Senator is a global brand and remains an independent, family owned business.

Complete Solutions Provider

We control every aspect of the process from product design, to manufacturing, logistics, installation and aftercare.

LifeCare Brand
Award winning products for challenging environments and mental health

End-to-end Service
Major project delivery expertise; Including full Project Management for new build and refurbishment projects

We support care and rehabilitation for those with mental health issues, providing furniture for all environments

UK Manufacturing
Products designed and manufactured in the UK at Teal's factory, tested to applicable standards

Design
We work alongside designers of international repute to deliver innovative, design led solutions, which reduce risk and enhance the environment.

Installation
A skilled, in-house nationwide experienced CSCS certified approved installation team

Innovative Products
Inspirational new collections that are 'Shaping the future of mental health furniture'

Sustainability
Strong sustainability credentials - all of our products are designed to be up to 100% recyclable

Bespoke Solutions
Tailoring products to meet your exact requirements

Aftercare & Support
Experienced Customer Service team with nationwide Service Support Team as part of our commitment to customer aftercare

Teal combine innovative design with practical application, placing the user at the heart of the process.

Design & Manufacture

Teal combine imaginative design with practical application, placing the user at the heart of the process. Creating innovative products both appropriate for the environment and the welfare of caring professionals.

- Leading investor in Research, Development and Design
- Significant investment in latest technologies, equipment and LEAN initiatives
- Consideration for sustainability and end of life recycling
- Manufacturing flexibility with bespoke product design

Quality Management

ISO 9001: Quality Assurance Accredited and operate comprehensive quality management procedures, covering all aspects of design, manufacturing, distribution, customer service and aftercare.

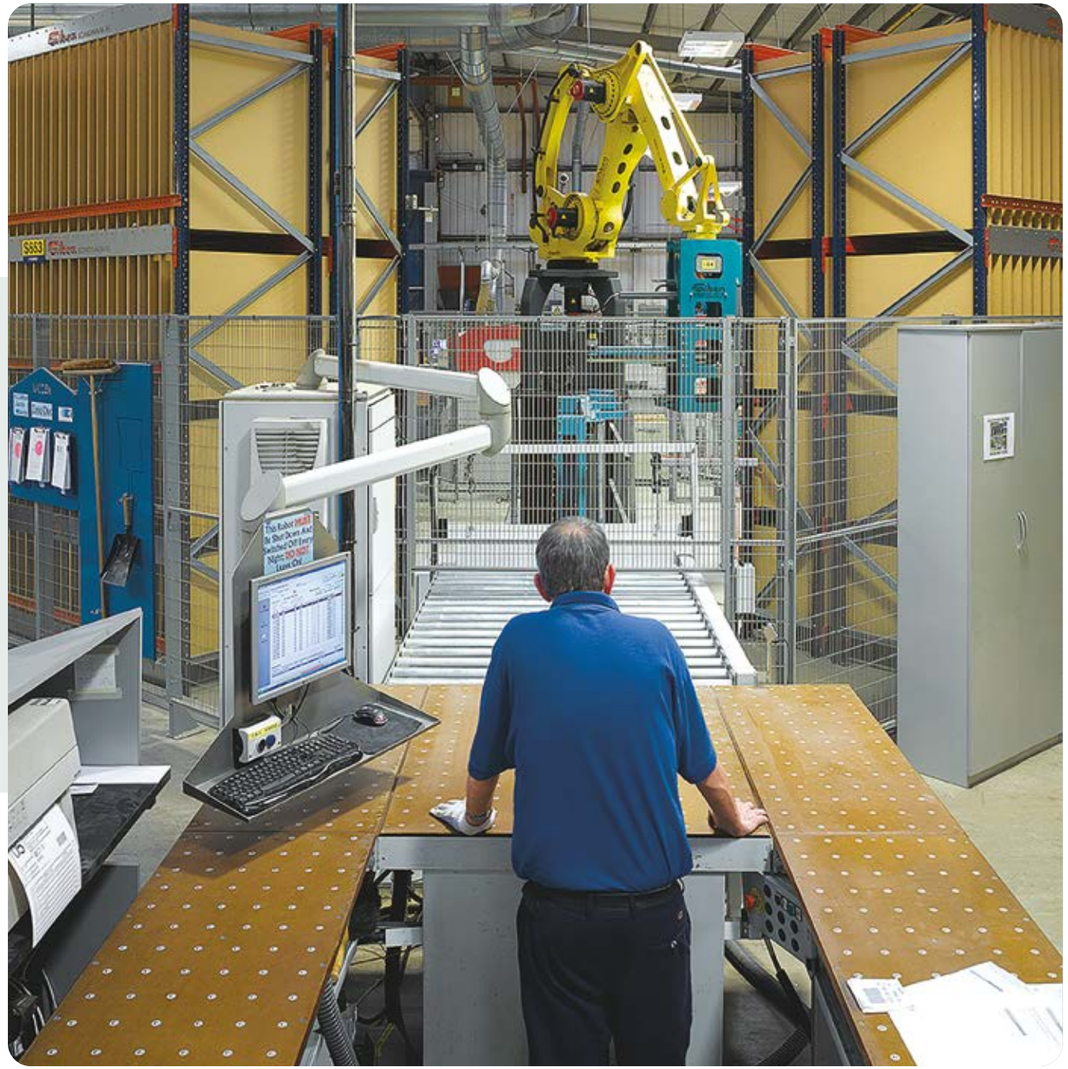

INDUSTRY LEADING WARRANTIES

All products carry a 7 year warranty

subject to standard Terms & Conditions (see www.teal.co.uk for details).

Testing & Standards

- We have been certified to ISO9001 since 1991, and are full members of the Furniture Industry Research Association (FIRA).
- All products are tested by FIRA externally, or in-house using FIRA installed test equipment, to the applicable standards, including BS EN 16139 and BS4875.
- All fabrics are tested to BS5852 IS5 or higher and BS7176 Medium Hazard.
- All foams are Combustion Modified High Resilient fire retardant (CMHR).
- All moulded Roku® products are compliant with UL94 HB standard for flammability. Upholstered seat pads tested to BS5852 IS5.

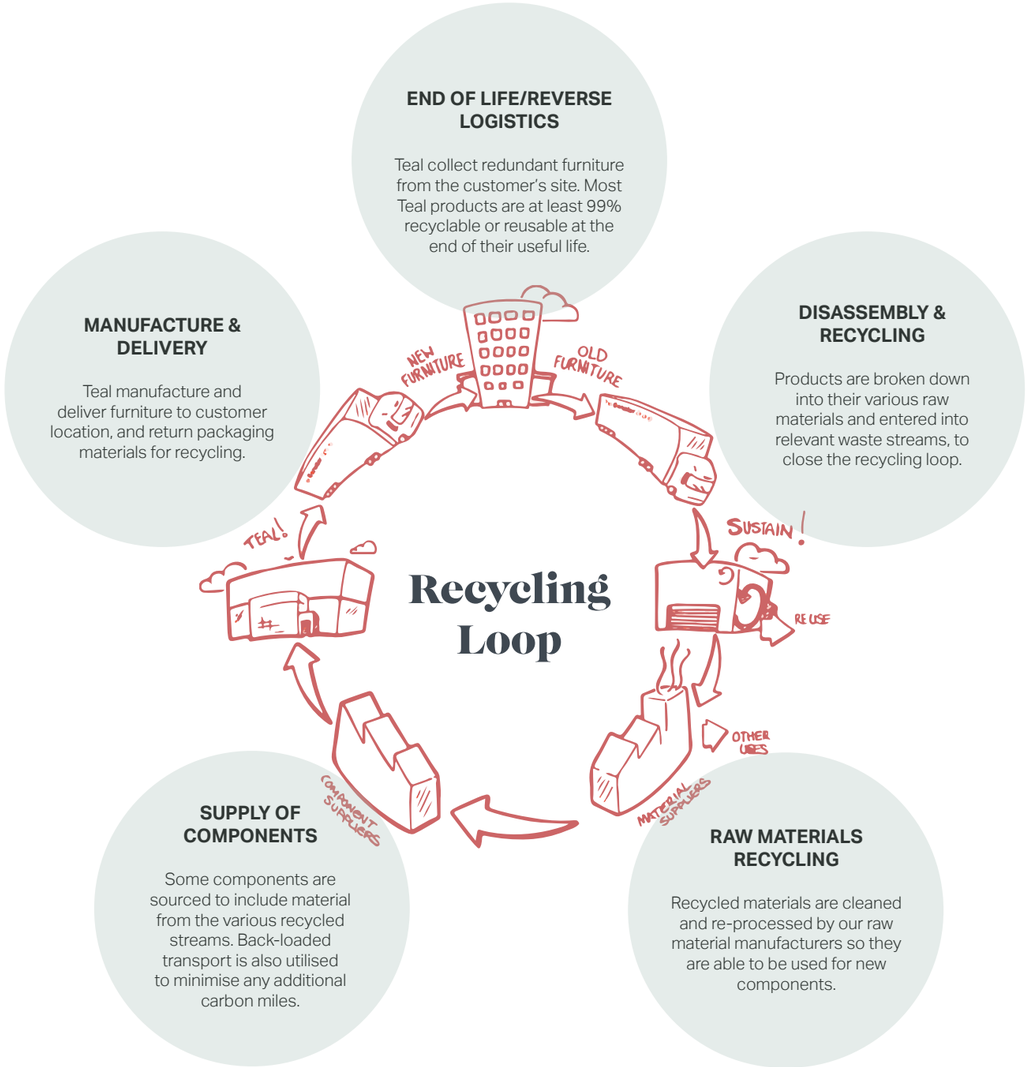

Certifications

- ISO9001 Quality Management System
- ISO14001 Environmental Management
- Furniture Industry Research Association (FIRA)
- British Contract Furniture Association (BCFA)
- Furniture Industry Sustainability Programme (FISP) which promotes Sustainable Development as a strategic business issue
- FSC® Chain of Custody Certified

FSC www.fsc.org FSC® C123691 The mark of responsible forestry

Quality, Testing & Standards

Teal have a dedicated Design & Development team which includes specialist testing equipment for strength, durability and safety.

Recycling

Our business takes a truly holistic approach to the design, manufacture, supply and reclamation of our products. We see this as a cyclical process. From design to manufacture, use and reclamation we aspire to minimise all environmental impacts of our products and processes. We harvest the resources back from redundant products then remanufacture or reintroduce the materials into our component manufacturers supply chain.

Working alongside the Environment Agency we have created our own in-house recycling facility 'Sustain' - a purpose-built 15,000ft2 recycling unit in Lancashire.

Sustain is a **ZERO** waste to landfill business. Waste material from our manufacturing process is sent to Sustain, which has helped us to achieve **ZERO** waste to landfill in manufacturing.

Reduce.

Products: Reduction in virgin materials used – programmes to increase recycled content of products

Packaging: Minimal packaging on all products

Re-use.

Products: We re-use where possible, whether this is donating redundant products to charities and social enterprises, or using our remanufacturing service to give old products a new lease of life.

Packaging: We re-use packaging wherever possible and in line with quality guidelines.

Recycle.

Products: All Teal products are designed to be 100% recyclable.

Packaging: All waste packaging materials are recycled.

Sustainability

Our purpose-built Sustain in-house recycling facility represents a significant investment in our sustainability commitment; we have recycled more than 270,000 items and diverted more than 7.5 million tonnes of waste from landfill since establishing this business. This equates to an emissions saving of 8,790,798 Kg/CO2. Visit sustain.co.uk for more details.

High Performance Fabrics

The principles of product design with specific focus around hygiene and infection control are paramount to our development process. The impact of our products on the wellness of residents and patients through aesthetically engaging and comfortable design is always accompanied by a consideration of how day to day use of the product will impact on carers' ability to clean and keep it safe, usable and looking good for prolonged periods.

Teal source fabrics from market leading manufacturers. Durable and resistant to abrasion, a range of fabrics are available to meet the specific demands of the healthcare environment. Many are stain resistant, waterproof and have anti-bacterial, anti-fungal properties for infection control. For areas where misuse is likely we can supply a range of anti-graffiti vinyls. Crib 7 options also available where required.

MEDIPUR™ PLUS

Teal's enhanced anti-microbial, Medipur™ Plus, protects and cares for Roku® and Roku® Keata. Tested in line with ISO 21702 "Measurement of Viral Activity on Polymers and other Non-Porous Surfaces", Medipur™ Plus achieved 86.81% effectiveness against Coronavirus in less than 2 hours.

Plus + complete upholstery

Upholstered products are available with sewn in seams for ease of cleaning and to prevent concealment. Sewn closed, zip free upholstery on Flex foam protects the foam from contaminants.

Anti-bacterial lacquer

Chair frames incorporate Medicote™ anti-bacterial lacquer, formulated to include an agent that stops bacteria surviving on the surface, including MRSA, e.coli, Salmonella, food poisoning and other bacteria. Medicote™ also reduces the risk of deterioration, discolouration and odours caused by micro-organisms.

KYDEX® Thermoplastic finish

Finish options available on Myla Security bed, Portobello security tables and other selected coffee and dining tables, with impact resistant, smooth thermoplastic KYDEX® surfaces for infection control.

Sacral gap

A Sacral gap allows for easy cleaning in line with infection control protocol.

Fully fitted bespoke furniture for bedrooms, lounges and circulation areas, with specification options to suit all client risk levels.

Product Features

Look for these symbols throughout the brochure for a quick and easy way to check product specification, features and options.

Plus+ Complete upholstery option
Upholstered products are available with sewn in seams, creating a searchable seat area to prevent concealment and for ease of cleaning

Weighting options
Products are available with concealed weighting options to limit misuse, increase stability and to maximise safety. (Note: Medium weighting = +20kg, Heavy weighting = +40kg)

Anti-ligature
Products designed for enhanced anti-ligature healthcare environments where there is risk of self-harm

Difficult to pick up
Flowing design means many products have been designed to make them difficult to pick up, with rounded corners and smooth lines

Security screws
Enhanced mental health (M) and Extreme environment (X) products are fitted with non-retractable security screws, no visible staples and no metal back tacking for added safety

Glide foot
Strong, sturdy solid wood rail. Full contact with floor ensures robustness

Piano hinges
Strong, durable hinges with reduced ligature risk

Lockable cabinet
Lockable storage for valuables & medication. Suiting option available

MFC construction
Robust core board, with a wide choice of wood effect finishes

MDF construction
Enhanced density core board provides additional weight and strength

Mental Health Specification
Constructed for use in environments up to medium risk. See below for full details

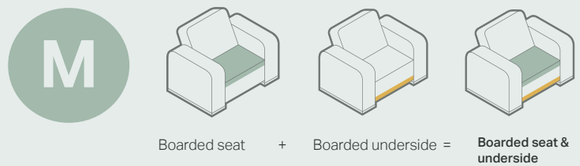

Extreme Environment Specification
Constructed for use in environments up to high risk. See below for full details

Seating Specification

Our two challenging behaviour seating specification options are identified by the M and X symbols, and can be found throughout this brochure.

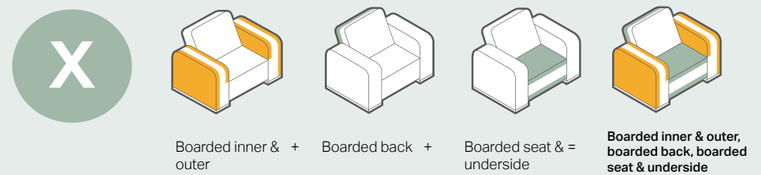

Mental Health Specification

Solid Birch frames with boarded plywood panels; ply underside and seat platform

Extreme Environment Specification

Solid Birch frames with boarded plywood panels; ply underside, seat platform, back, inner and outer panels

M and X both feature:
- Non-retractable security screws and bolts
- No visible staples
- No metal back tacking

Additional Options:
- Weighting (where indicated)
- Polycarbonate base

Choosing your products

Ensuring each product is suitable for its intended environment is essential. Look for these symbols throughout the brochure for a quick and easy way to check product specification, features and options.

Suitable Environments

Low Risk Suitable for reception, outpatient services, step-down & recovery

Low To Medium Risk Reinforced products for environments where enhanced robust specification is required*

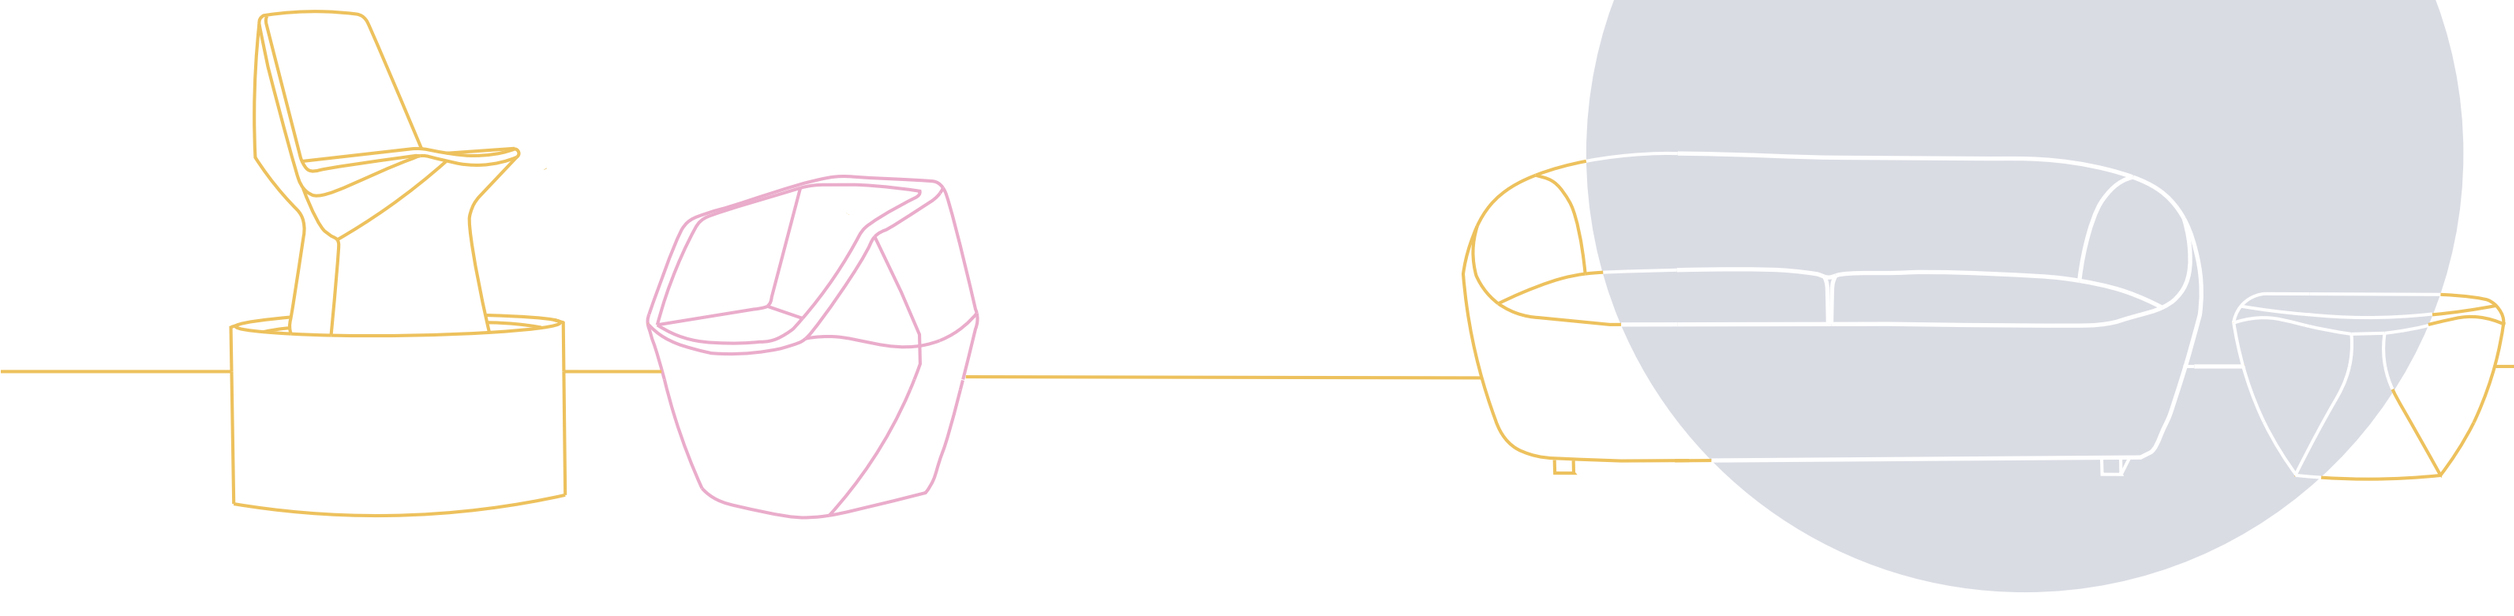

Low To High Risk Weighted, reinforced products for environments where intentional throwing and furniture damage is likely to occur.

Low Risk **Low to Medium Risk** **Low to High Risk**

*Added weighting can make medium risk products suitable for a high risk environment. Please contact Teal for further details.

Roku® Family

1.

ROKU®

Robust, secure and incredibly versatile; Roku® fits the environment, no matter how challenging.

- For full range model options see p164

CASE02 CASE07 CASE06 CASE13

For all range model options and dimensions, see page 164

Environment:

Low to Medium Risk

Sense

Sense is a contemporary bedroom range with dementia friendly features including scoop drawer style and polycarbonate door options.

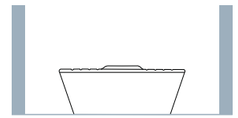

Myla

Myla Security Bed is a secure, extremely durable addition to the challenging environment bed collection. Smooth, round profile edges ensure enhanced safety and security.

Environment:

Medium to High Risk

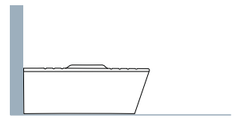

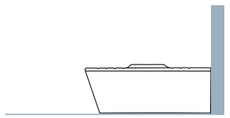

BDMY01 Central Freestanding

BDMY02 Central Wall Fixed

BDMY03 Left Hand Wall Fixed

BDMY04 Right Hand Wall Fixed

Standard Features

- Durable MDF vinyl wrapped construction
- 22mm soft edge top
- Channelled platform allows easy cleaning and air to circulate under the mattress
- Sloping sides; enables easy staff access for cleaning or assisting a service user. Aids sit-to stand movement.
- Waterfall edging around platform/base prevents fluid ingress and improves cleaning
- Internal support sections provide enhanced strength
- Mattress retainers

Options

- Freestanding central version or wall fixed
- Floor standing headboard BDMY05
- Finish options: Graphite Grey, Pippy Oak, white KYDEX®

Fabric Options

Teal source contract fabrics from market leading manufacturers. Durable and resistant to abrasion, a range of fabrics are available to meet the specific demands of challenging environments. Many are stain resistant, waterproof and have anti-microbial, anti-fungal properties to help reduce the risk of healthcare associated infections.

Fabric Options

Please contact Teal Customer Services for help in the selection of a suitable fabric for your environment.

Standard fabric colour swatches can be viewed at www.teal.co.uk
Fabric cards are available on request - please contact Teal customer services.

Customer's own fabrics: Teal can upholster in a customer's own material. Please contact Customer Services prior to placing an order.

Testing and Standards:

All fabrics and vinyls pass BS5852 Ignition Source 5 or higher and BS7176 Medium Hazard. Crib 7 options also available. All foams are Combustion Modified High Resilient fire retardant (CMHR).

Cleaning and Maintenance

Always follow the care and maintenance procedures specified by the fabric manufacturer.

For general guidance:

- Clean and care for the fabric on a regular basis to maintain condition and appearance. Most stains can be removed by wiping clean
- Wipe clean regularly with a damp cloth to remove dust particles and light soiling
- Remove spillages promptly (within 15 minutes) with an absorbent dry cloth
- E cloths are recommended for general cleaning of upholstery
- Information for general guidance only
- Always refer to manufacturer's cleaning instructions for details specific to the chosen fabric

Wood Finish Options

Chair Wood Stains

Standard wood stain finishes available on all solid timber chair legs and frames.
Our furniture is manufactured in solid Beech or laminated Beech and is available in clear or a number of stained finishes, with Medicote™ anti-bacterial lacquer.

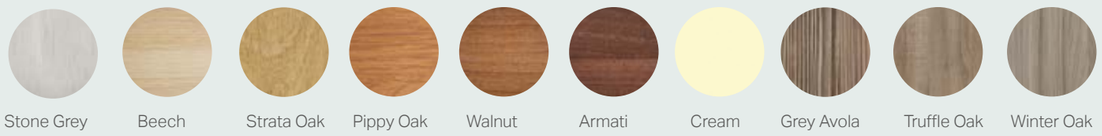

Standard Chair Wood Stains

Cabinet Finishes

MFC Furniture Finishes and Vinyl Wrap
Available on 18mm MFC cabinet carcases, and as 18mm vinyl wrapped cabinets. MDF Pippy Oak only.

Standard Cabinet Finishes

Fabric & Finish Options

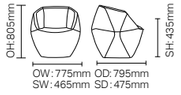

Teal source contract fabrics from market leading manufacturers.
Durable and resistant to abrasion, a range of fabrics are available to meet the specific demands of challenging environments. Many are stain resistant, waterproof and have anti-microbial, anti-fungal properties to help reduce the risk of healthcare associated infections.

Stains can be matched to customer's own requirements. The original should be provided in this instance.
