Solutions for
Challenging Environments

challenging
environments

Innovation is at the heart
of everything we do

teal

Welcome to the Teal Challenging environments brochure.

At Teal we work collaboratively with key stakeholders, helping to address some of the challenges faced in the daily management of inpatient services. This insight has helped us to drive innovation in product design and service delivery.

Based on good design, our innovative, class leading products help to transform environments and create bright, contemporary and non-clinical interiors that complement latest service user led design thinking.

a bit about us

Everyday we design, make, deliver and install into a diverse range of NHS mental health services, charitable hospitals and facilities and other independent specialist mental health providers across the UK.

The bigger picture

Based in Lancashire and with its own manufacturing and operations across multiple sites Teal is part of The Senator Group - the largest manufacturer of commercial furniture and workplace solutions in the UK and the leading investor in Research, Development and Design. With facilities in Europe, the US and Middle East, Senator is a global brand. And even though Senator exports to over 70 countries, has a turnover of £120m and over 1300 employees, it is a family run business.

Creating therapeutic environments

For mental health environments, the ethos is to design and install innovative furniture which complements good practice guidance and safety by design. Helping to deliver therapeutic 'hotel style' environments for all client group risk levels which promote safety and comfort, aiding recovery and independence and creating contemporary spaces which break from traditional design standards.

Installation service and support

We take complete control over every aspect of the design, production, delivery, installation and aftercare of our award winning products.

Installation

Robust production, manufacturing, quality and project management underpins everything we do. Installation services are managed by a dedicated Account Manager, who in conjunction with the Project Manager coordinates all aspects of the delivery and installation, including full site survey with detailed RAMS. A skilled, nationwide team carries out the installation in line with ISO9001 procedures. Employees are CSCS approved.

Service support

We have a nationwide Service Support Team in place as part of our commitment to customer aftercare.

our approach

Innovation is at the heart of everything we do

Teal LifeCare

We deliver our capabilities through two integrated brands – Teal LifeCare and Teal HealthCare. Teal LifeCare is a dedicated project management team, with innovative collections designed to meet the specific requirements of challenging behaviour, learning disabilities, mental health and dementia. We offer a total solutions package - from concept through to fully installed furniture and furnishing schemes, including blinds and curtains with anti-ligature features.

Teal HealthCare

Teal HealthCare is an award winning solutions based provider of innovative, high quality patient seating, ward furniture and specialist products for healthcare. Today, Teal HealthCare is the largest supplier of Ward and Residential Furniture to the NHS in England & Wales.

solutions

It's all about understanding the issues.
Finding solutions.

Rethinking mental health environments.

Teal is a solutions driven company
with innovation at the heart of
everything we do.

design & manufacture

Teal combine imaginative design with practical application, placing the user at the heart of the process.

Creating innovative products both appropriate for the environment and the welfare of caring professionals.

- *Leading investor in Research, Development and Design*
- *Significant investment in latest technologies, equipment and Lean initiatives*
- *Consideration for sustainability and end of life recycling*
- *Zero carbon manufacturing*
- *Manufacturing flexibility with bespoke product design*

quality

high quality +
short lead times +
agile manufacturing
(with bespoke options) +
customer support =

happy clients.

*testing
& standards*

Quality Management

- ISO 9001:2008 Quality Assurance Accredited and operate comprehensive quality management procedures, covering all aspects of design, manufacturing, distribution, customer service and after-care.

Environmental Certification and Accreditations

- ISO 14001:2004 Certified
- Health and safety - Accredited to BS OHSAS 18001:2007
- Furniture Industry Sustainability Programme (FISP) which promotes sustainable development as a strategic business issue.
- Furniture Industry Research Association (FIRA)
- British Contract Furniture Association (BCFA)
- Backcare - the charity for healthier backs
- FSC Certified

Guarantee

- Teal offer a 7 year guarantee, subject to standard terms and conditions.

Teal chairs and derivatives are tested to meet strength, durability & safety requirements.

sustainability

We look at Reducing and Reusing before we start thinking about Recycling. These 'Three Rs' have a strong influence over our business from design and production right through to delivery. We've been carbon neutral since 2010.

Our 8 rules for minimising impact on the environment:

- 1. Sustainable design is integral to every product brief*
- 2. Minimise the use of virgin materials in the manufacturing process*
- 3. Source from managed, sustainable & certified FSC timber suppliers*
- 4. Use fully recyclable materials*
- 5. All packaging to be reused or recycled*
- 6. Redundant furniture recycled or reused*
- 7. End of life MFC sent to biomass generators*
- 8. Eliminate our carbon footprint.*

recycling

Working alongside the Environment Agency we have created our own in-house recycling facility for old furniture, which is disassembled into components and segregated into waste streams for recycling - typically wood, metal, plastic, fabrics and foams. A certificate is issued to confirm recycling in an environmentally friendly manner.

design solutions including bespoke

Teal can supply fully bespoke fitted bedroom furniture and window dressings to suit all client group risk levels, up to high security environments. We design and install furniture which complements good practice guidance, promoting safety and comfort.

Built-in projects include fully bespoke integrated bedroom systems, including wardrobes, desks, seating and box beds with specification and colour options.

Installation

A skilled, nationwide team carries out the installation in line with ISO9001 procedures. Employees are CSCS approved.

- CAD drawings to help visualise the installation
- Built-in bedroom furniture options - Melamine faced with 2mm edging, vinyl wrapped, sealed MDF or compact laminate specification
- Handed, scribed box beds, with sloping top headboard options
- Anti-ligature systems
- Units scribed to wall, no gaps or internal hiding places
- Floor to ceiling option
- No visible security fixings
- Anti-pick mastic option

Design & space planning

curtains, blinds, tracking & soft furnishings

At Teal we have a wealth of experience to assist in providing curtain tracking systems and blinds for healthcare environments, including anti-ligature fixings, through trained and certified track installers.

- Installation of batten, tracks & vertical blind headrails
- Installation of vertical blind louvres and curtains
- Provision of soft furnishings - duvet covers, pillow cases, cushions/covers, including all in one cushions/covers to prevent concealment
- Initial audit of anti-ligature fixtures and fittings
- Comprehensive training, including special features, general care, risk assessment, cleaning and infection management
- Maintenance package for anti-ligature tracks

Blinds are genuine YewdaleKestrel® with safety tracks which separate from the profile when a specific weight is applied. Anti tamper safety screws are used in all installations. Fabrics meet relevant flame retardant requirements, including BS5867, BS EN 13773.

case studies

University Hospital Llandough

Cardiff & Vale University Health Board

Adult Mental Health

Teal supplied fully bespoke integrated bedroom furniture and seating for 136 bedrooms at University Hospital Llandough in South Wales, as part of a new £100 million adult mental health unit.

Farnham Road Hospital

Surrey and Borders Partnership NHS Foundation Trust

The new £30 million, state-of-the-art Farnham Road Hospital is Guildford's first purpose-built mental health hospital, used to treat patients with a variety of conditions, ranging from depression and anxiety, schizophrenia, learning difficulties, alcohol and drug addictions. Teal supplied specialist furniture throughout the new facility.

Adel Beck

Furniture for secure children's home

Teal equipped Adel Beck secure adolescent unit with its specialist range of challenging environments furniture for children.

The £12.5 million project was delivered by BAM Construction on behalf of Leeds City Council.

challenging environments options & standard features

Look for the symbols
throughout the brochure
on selected products

Plus+ Complete upholstery option

Upholstered products are available with sewn in seams to prevent concealment and for ease of cleaning.

Weighting options

Products are available with concealed weighting options to limit misuse, increase stability and to maximise safety.
(Note: Medium weighting = +20kg, Heavy weighting = +40kg)

Anti-ligature

Products designed for enhanced anti-ligature healthcare environments where there is risk of self-harm.

Difficult to pick up

Flowing design means many products have been designed to make them difficult to pick up, with rounded corners and smooth lines.

Security screws

Enhanced mental health (M) and Extreme environment (X) products are fitted with non-retractable security screws, no visible staples and no metal back tacking for added safety.

seating options

Our two challenging behaviour seating specification options are identified by the M and X symbols and can be found throughout this brochure. The diagrams below illustrate the differing specifications.

Specialist seating

sensory motion chair

"I work with many individuals who seek movement and this helps them in a variety of ways; to be more alert, to cope with feeling over alert, or to generally self soothe. Jetson is a sturdy modern chair that has a linear motion and is solid enough to support adults with behaviour that can challenge or some gross motor difficulties such as heavy sitting. The linear movement can be calming for individuals and often they like to self-manage the rate and speed of motion. Jetson is ideal, as it is comfortable, supports transfers for those mobile enough to access it, yet is sturdy. It does not look clinical, so would suit a multitude of environments. It is both a comfortable chair and a therapeutic tool within the environment".

Lead Occupational Therapist working in Adult Learning Disabilities

Jetson

Jetson is a generously proportioned, comfortable rocking chair suitable for use in low to medium secure units. Constructed using a traditional carcass that incorporates a webbed seat support, Jetson has a gentle rocking base and soft upholstery for superior comfort.

- Gentle, calming rocking action for relieving tension
- Contemporary styling for the modern care facility
- Stops quickly on its own
- Sturdy construction
- Difficult to pick up
- Suitable for multiple areas including learning disabilities and rehabilitation - within therapy and sensory areas
