KWICK>SCREEN[®]
DUO

Product Brochure
2019

TOTAL PRIVACY SOLUTION.

The Teal KwickScreen Duo is the total privacy solution, allowing you to create a completely private bay in seconds.

FEATURES

Portable

The Teal KwickScreen Duo features high-quality castors and base handles for ultimate portability when you need it. And with no aluminum extrusion casing, the unit has a minimal footprint when stored away.

Create a Corner

Comprised of two inner panels, the Teal KwickScreen Duo can be manipulated to create an L-shape to fit around a bed or an obstruction quickly and easily.

Flexible

Each inner screen can be extended up to three metres in length, and has a full 180 degree range of movement within this range. Or fully extend both screens to a six metre width.

FEATURE BENEFITS

CUSTOMISATION

Improved Infection Control: With wheels only at either end, there is no trip hazard along its length, making it easier to clean around and underneath. With large seamless surfaces, made from impermeable materials, the Teal KwickScreen Duo can be wiped or steamed clean after every patient, unlike curtains or foldable products.

Privacy & Dignity: The Teal KwickScreen Duo provides greater privacy and dignity for users, being the more substantial option compared to curtain alternatives. In spaces where there is a high demand for open plan options, it is the flexible solution for you to maximise and reconfigure space to be multi-useful.

Customisation: Our image catalogue has a variety of complimentary designs to print onto your Teal KwickScreen. With four customisable sides you can introduce appropriate imagery, calming nature scenes and vibrant splashes of colour to transform your space and actively aid physical and mental well-being.

Cost Effective: Teal KwickScreens provide a more cost effective solution compared to expensive remodelling or tracking systems. No need to interfere with pre-existing equipment or furnishings, our products adapt to your space and create different working areas quickly and efficiently.

The Teal KwickScreen Duo features two double-sided printable inner panel. You can customise the panels with a diverse selection of complementary images from our catalogue. Easily interchangeable, if you need a replacement or a change of scenery, you have complete flexibility. Our 'collections' are specifically designed for numerous panels, to provide the best aesthetic for your space.

If you want to use your own images, our team can guide you through the process of creating something specific. Feature a logo or corporate message, ready for your brand to be visible anywhere.

DIMENSIONS

ENVIRONMENTAL SAFETY

Fully Extended:

Dimensions:

Total Extended Width: 6000mm
 Retracted Width: 30cm
 Height: 1905mm
 Weight: 20kg

Closed:

Teal are committed to providing sustainable product solutions and reducing our environmental impact. We focus on three key areas:

- **Sustainability** - Sustainability is written in to everything that we do. It's in our designs, our manufacturing and our delivery. Every one of our products is at least 90% recyclable with many being 100%.
- **Reducing Energy Consumption** - We've been carbon neutral since 2010
- **Recycling** - Working alongside the Environment Agency we have created our own in-house recycling facility for old furniture, which is disassembled into components and segregated into waste streams for recycling - typically wood, metal, plastic, fabrics and foams. A certificate is issued to confirm recycling in an environmentally friendly manner.

Product Details

Product name: Teal KwickScreen Duo
Product Category: Other metal furniture, retractable partition
