The **Senator** Group

A F F O R D A B L E

l u x u r y

A brand new offering from the innovative British manufacturer Teal.

Introducing a range of design led products specifically aimed at the residential care market, offering classic styles with a twist plus fashionable, contemporary pieces all complemented with a range of hand crafted cabinets. Our aim is to create beautiful living spaces sensitive to the users needs. Enriching peoples lives, helping them thrive in a safe secure environment. Teal Living...
furniture for people to live in.

STYLISH

Reliability

Our inspiration: design, comfort, suitability and sustainability...
And doing our best to offer something a little different.

With a focus on ergonomic design and distinctive styling alongside the needs of postural support, infection control and pressure management we can achieve high-end looks whilst meeting the specific needs for elderly care. You'll see Teal Living embracing new materials, upholstery techniques, advances in the manufacturing process and fresh new designs... our aim to help the elderly maintain their independence.

DISTINCTIVE

Quality

We believe in craftsmanship and quality.

With over 40 years' experience manufacturing for the NHS and challenging environments market we know how to make furniture. Combining this knowledge and expertise allows us to create design-led products of real substance. Being part of The Senator Group, a family run business, global brand and leader in the furniture manufacturing industry, we will continue to invest in research and development, bringing new ideas and products to the market.

Offering a full turnkey service from soft furnishings to lighting, artwork and accessories.
Our in house projects team would be happy to help and advise you.

For the purpose of the brochure not all the fabrics are suitable for all environments but we work very closely with the manufacturers to ensure we have the most up to date products in the market. The fabrics displayed are all contract grade and in the care market we would also be advising the use of fabrics that have waterproof and antimicrobial properties..

We would like to say a huge thank you to the providers featured in the brochure: Panaz, Agua, Today Interiors, Clarke and Clarke, Sunbury Design, Tyson Lighting, Danfloor Carpets.

And our dedicated marketing team O'Connell & Squelch Ltd.
