Fire Retardant Upholstery Fabrics to BS7176
Source 7 when tested over CMHR 35kg/m³ foam

Perfect for:
High Hazard, Prisons and Secure Accommodation

Fabric Specifications

Flame retardant	BS7176 Source 7 when tested over CMHR 35kg/m ³ foam
Anti-bacterial/Anti-fungal	Resistant to microbial or fungal growth including Salmonella, E Coli and MRSA
Waterproof	Hydrostatic Head BS3424 > 1 metre
Martindale	Severe Contract > 100,000
Tear strength	BS4303: Severe Contract Grade
Breaking strength	BS2576: 1988
Stain resistant	Excellent stain removal has been observed for grease, ink, blood, urine, coffee, iodine, betadine, ketchup, chewing gum, chocolate, grape juice
Composition	Vinyl: 2% Vinyl Acrylic, 80% PVC, 18% Polyester. 140cm (54") wide

Technical Information

Can be stitched, tacked and glued. Cannot be heat welded.

Do not mark back of fabric with felt or ball-point pen.

Please note that all fabric offered is subject to minor tolerance in respect of shade and other slight variations.

Technical specifications may be amended, please check for the latest information.

Please ask if you require a sample of the current batch available but be aware that stock can move quickly.

Bespoke colours can be produced subject to minimum order quantities.

Fabric Care

Use a vacuum cleaner or soft brush to remove dust and solid particles.

Always try cleaning products on a hidden piece of fabric to test suitability.

Wipe frequently with a damp cloth to maintain the appearance of the fabric.

All spillages should be removed immediately with a clean absorbent cloth.

Most stains can be removed using cold/warm water and a clean microfibre cloth, however poorly fixed clothing dyes may cause permanent staining.

Stains from products containing oil and grease should be treated with a spirit based solution.

If soap based cleaners are used, all soap residues must be rinsed from the fabric.

Can be cleaned with mild Hypochlorite solutions (up to 10,000 ppm of available chlorine - including Haz Tabs and Chlor-Clean) or Mineral Spirit for infection control purposes.

Can be steam cleaned in situ.

Do not machine wash or dry clean.

Remove all stains immediately before they set.

Please refer to the Care Sheet on the Agua website for further details.

Do not use solvents, chemical agents, waxes or polishes as this will damage the surface of the fabric.
