Jemison Rapini 1820

Stylecare™ are specialist sanitised fabrics from SUNBURY DESIGN specifically for healthcare applications and for use in environments where impervious, durable, stain resistant, 'safe fabrics' are required.

anti-microbial anti-fungal soil resistant waterproof fire retardant

Technical Specification.

Width.	approx. 138cm / 54in +/-
Anti-microbial / Anti-fungal.	fresh hygienic finish, no skin irritation, effective against 99.8% of micro-organisms.
Waterproof / Urea Resistant.	BS 3424 part 26 hydrostatic head > 1 mtr. BS 3424 part 19 - no deterioration after 24 hour 5.5pH and 8.8pH Urea Soak. BS 3546 water vapour permeability 65%.
Breathable.	BS 3546 water vapour permeability 65%.
Soil Resistant.	includes soil & stain protection, PFOS and PFOA free.
Flame Retardancy.	BS EN 1021-1, BS EN 1021-2, BS 7176 Medium Hazard (over CMHR 35 foam) CAL 117, NFPA 260, IMO Res. A652(16). FTP Code MSC 61(67) part 8 in excess of 45 000 rubs
Durability.	BS EN ISO 105 E02 1999 grade 4/5
Light Fastness.	BS EN ISO 105: 1995 X12 grade 4/5 (wet and dry).
Colour Fastness to Rubbing.	SUITABLE FOR SEVERE CONTRACT/HOSPITALITY & HEALTHCARE UPHOLSTERY
Application.	Sauvage Faux Leather - general cleaning should involve regular wiping over with a dry or damp cloth, using mild detergent dissolved in warm water if necessary. Suitable for infection control cleaning using a bleach or alcohol dilution, please see our CARE GUIDE F2.
Care and Cleaning.	Barton, Fleming, Jemison & Lister - please see our CARE GUIDE S 1. for routine cleaning mild soap & warm water sponging is effective, the best method is a 'wipe & dry' technique. Full immersion or soaking of the fabric is not recommended. 2. mild antiseptic cleaning agents can be used and more stubborn stains may require the use of a non ionic detergent. For heavy soiling and infection control we recommend the use of a phenolic disinfectant solution or dilution of Dettol or similar (following manufacturers instructions). 3. for the most effective removal, all staining should be dealt with immediately. 4. <u>do not</u> dry clean, steam clean or use solvents as over time this could affect the performance of these fabrics. Due to the anti-microbial, anti-fungal and soil resistant treatments such cleaning practices should not be required. 5. Before any action we advise to check suitability of any cleaning method by applying to an area out of sight (or on a quality sample).
Colour Matching.	In accordance with normal trade practice batch to batch variations may occur within commercial tolerances. Samples shown on this card are a guide and current production may differ marginally. all values and measurements are approximate.
