

**MRAV01, MRAV02**

With a blend of comfort and reliability Avia's advanced ergonomics are perfectly tailored to the needs of patients and caregivers.

The zero-gravity position promotes even distribution of body weight, enhancing blood circulation, relieving back and limb pressure.

**Standard Features**

- Telescopic armrest for safe side transfer (access from either side)
- Multi-position backrest - can be automatically locked in any position
- Independent leg rest adjustment promotes blood circulation and muscle relaxation. Legrest operated by side lever, independent of the backrest
- Non-slip retractable footrest (**MRAV02** only)
- Rear manoeuvring handle
- Side accessory holder
- Removable seat for infection control
- Epoxy coated metal components for durability
- Maximum load 150kg (23st)
- Reflexion® BB pressure management seat

**Optional Features**

- IV Pole with 2 hooks
- Headrest
- Comprehensive Servicing and Maintenance options
- Customise from a wide range of fabrics to enhance any space

**Technical Information**

**Dimensions:**

## 3 R's

Teal is committed to continually improving the sustainability of all environmental aspects within our business.

To meet both international standards and our own environmental targets we apply the three R's principle

## Reduce, Reuse and Recycle.

Whilst recycling is the element which receives the most exposure it is actually the last option available and should never be the prime target in anyone's battle to reduce waste.

It is our duty as individuals and as a company to initially attempt to Reduce usage. Then we should look to Reuse wherever possible and finally, only after these two processes have been exhausted, should we consider Recycling.

Life cycle understanding

Waste elimination

Recycled content innovation

End of life solutions
