

WFKW21, WFKW22,  
WFKW23, WFKW24

Award-winning wipeable dignity screen enables the flexible transformation and division of open plan areas.

**Standard Features**

- Patented C-Tube technology
- 360° swivel wheels
- Powder coated aluminium body
- Medical grade castors
- Fully encloses for easy storage
- Wipeable and compliant with infection control protocols
- Quickly retracts for emergency access

**Customisable**

All our hospital privacy screens can be printed on both sides, offering endless possibilities for custom artwork.

**Sustainable**

All KwickScreens® provide a more sustainable alternative to disposable and fabric hospital curtains.

**Flexible**

Our hospital screen instantly creates a hygienic patient space, allowing you to respond to changing demands.

**Hygienic**

Unlike other medical screens, minimal dirt traps and easy-to-clean, wipeable panels, compatible with all standard cleaning products.

**KwickScreen® Air**

The world's most flexible wall-fixed 3m length screen.

Scientifically proven to improve hygiene when tested against curtains.

 choice or pictures or illustrations of  
 choice; 3m Screen Extension

## 3 R's

Teal is committed to continually improving the sustainability of all environmental aspects within our business.

To meet both international standards and our own environmental targets we apply the three R's principle

## Reduce, Reuse and Recycle.

Whilst recycling is the element which receives the most exposure it is actually the last option available and should never be the prime target in anyone's battle to reduce waste.

It is our duty as individuals and as a company to initially attempt to Reduce usage. Then we should look to Reuse wherever possible and finally, only after these two processes have been exhausted, should we consider Recycling.

**Life cycle understanding**

**Waste elimination**

**Recycled content innovation**

**End of life solutions**
