

Astra Nova/REAN21

Aesthetically designed, round arm manual and electric recliner family.

Standard Features

- Astra Nova manual recliner
- Tilt-in-space functionality as standard (backrest and seat recline synchronously, helping to maintain posture)
- Comfort arms with curved profile
- One piece arm border minimises number of seams for infection control
- Antimacassar head cushion
- Four heavy duty 65mm lockable castors
- Square footrest as standard

- Max load 125kg (20st)

Optional Features

- Postural support with pressure management seat options
- Removable lithium battery pack option
- Electric version REAN21E
