## Tolero Lounge

The design themes that shaped the original Tolero seating range are evident in the new Tolero lounge chair.

Whether paired with a coffee table in a lounge space, in a patient seating area or consultation room, Tolero brings refined proportions, styling details and comfort to any space.

### Standard Features

- Part of the Tolero seating range
- Postural supportive back
- Sprung seat offers exceptional levels of comfort

### Optional Features

- Leg finish options
- Customise from a wide range of fabrics to enhance any space

### Finishes

- Onyx
- Anthracite
- Stone

## Tolero

Tolero is a metal patient chair with full feature set, including removable seat, Reflexion® BB medium / high risk pressure management seat, housekeeping wheels, slim contoured profile and infection management features. Designed for use in hospital and healthcare environments.

HEALTHCARE

### Finishes

-  Onyx
-  Anthracite
-  Stone

### Standard Features

- Slim, contoured ergonomically designed posture back for head/ lumbar support
- Strong, durable high grade 40mm tubular metal frame creates a modern aesthetic
- Anti-bacterial easy clean coated finish for infection management
- Removable, depth adjustable seat as standard with sacral gap for cleaning/access
- Reflexion® BB medium / high risk pressure management seat,
- Integral housekeeping wheels
- Maximum load 160kg (25 st)
- Tested in line with BS EN 16139:2013
- 100% Recyclable

### Optional Features

- Frame colour options: Stone, Onyx and Anthracite
- Fixed seat

## Tolero Bench & Beam

The perfect accompaniment for public waiting and outpatient areas, Tolero beam & bench seating with slim, ergonomically designed posture back is designed for use in hospital and healthcare environments.

Strong, durable high grade tubular metal frame with anti-bacterial easy clean coated finish for infection management.

Tolero Beam

### Standard Features

- Strong, durable high grade steel frame creates a modern aesthetic
- Modern, slim profile with contoured back mimics curvature of spine for constant support
- Elegant moulded black plastic arms with integral anti-bacterial technology
- Sacral gap as standard for cleaning / infection management
- Easy rise arms assist sit-to-stand movement
- Robust and resilient to commonly used healthcare cleaning systems
- Black arms as standard
- Intermediate arms (Tolero Beam Only)
- Maximum user weight: 160kg (25st per seat)

### Optional Features

- Frame colour options: Stone, Onyx, Anthracite

**Finishes**

-  Onyx
-  Anthracite
-  Stone

## Infiniti

With elegant, seamless design, Infiniti is used around seating and over-bed. The moulded contoured top prevents spills and smooth surfaces facilitate easy cleaning. The robust, high quality cast horse-shoe base with anti-bacterial finish has a sealed underside to enhance infection control.

### Standard Features

- Overbed table with KYDEX® or Natural Beech fixed top, contoured to stop liquid spills
- Smooth surfaces for infection control
- Smooth gas assisted rise and fall column with anti-entrapment feature
- Horseshoe base - allows usage around a chair or over a bed
- High quality cast base with anti-bacterial finish and fully sealed underside for infection control
- Non marking twin wheel castors allow easy repositioning

### Optional Features

- Locking castors
- White or grey column and base
- Top colour options

## Nevis Recliner

Nevis is a manual recliner designed for use in hospital and healthcare environments, maintaining the perfect balance between modern aesthetic and ease of operation, with no compromise on comfort.

A hybrid recliner, Nevis can accommodate bariatric patients up to 220kg (35st/500lbs) and can also be used as a portering chair for patient transfer.

### Standard Features

- Simple footrest operation using large lever, back operated by the finger pull located on the outside arm, for both carer and patient operation
- Portering handle allows for ease of patient transfer
- Central locking brake system (2 rear wheels) front manual braked castors
- Independent back and footrest movement for personalised comfort
- Soft, adjustable polyurethane headrest (5 x 25mm increments)
- Postural support back with sprung seat for added comfort
- 4 x 100mm heavy duty castors for manoeuvrability (lockable), with 120mm clearance for hoist access
- Easy clean polyurethane arms and headrest for infection control
- Maximum load 220kg (35st/500lbs)

### Optional Features

- Anti-pinch seat cover
- Pull out foot tray

## Avia Recliner

With a blend of comfort and reliability Avia's advanced ergonomics are perfectly tailored to the needs of patients and caregivers.

The zero-gravity position promotes even distribution of body weight, enhancing blood circulation, relieving back and limb pressure.

### Standard Features

- Telescopic armrest for safe side transfer (access from either side)
- Multi-position backrest - can be automatically locked in any position
- Independent leg rest adjustment promotes blood circulation and muscle relaxation. Legrest operated by side lever, independent of the backrest
- Non-slip retractable footrest (MRAV02 only)
- Adjustable neck cushion for extra comfort
- Rear manoeuvring handle
- Side accessory holder
- Removable seat for infection control
- Epoxy coated metal components for durability
- Maximum load 150kg (23st)
- Reflexion® BB pressure management seat

### Optional Features

- 2 wheels (MRAV01) or 4 wheels (MRAV02)
- IV Pole with 2 hooks
- Headrest

## Astra Lunar

Astra Lunar is a specialist electric reclining patient chair for multiple healthcare settings including ICU, Neurology, Oncology, Maternity and patient bedrooms.

Dual motor controls allow independent control of the back and leg rest for personalised comfort.

### Standard Features

- Dual motor controls allow independent control of the back and leg rest for personalised comfort
- Emergency quick release back drop for CPR (allows lowering to 160°). Models RELU05, 6, 7, 8 only
- Central locking brake system (2 rear wheels) front manual braked castors
- 100mm large castors (non-marking polyurethane tread) for easy manoeuvring - chair can be easily rotated 360° in-situ
- Push bar to assist with manoeuvring (without patient) and for emergency back drop
- Easy operation hand controller & holder strap
- Fold down hook for hanging accessories
- Reflexion® Visco medium to high risk (BB) pressure care foam seat and back

### Optional Features

- Fixed or removable arms
- Loose or fixed seat
- Pressure cushion foam options
- Folding side table; left hand or right hand (per arm); fixed arms only
- Anti-pinch seat cover
- Rechargeable battery pack
- Twin port USB charger
- Removable headrest option

## Glide Stools & Operator Chairs

Glide is a multi-purpose gas lift stool collection which combines freedom of movement with multiple configuration options, helping to create the optimum seating position for healthcare professionals in a variety of settings.

### Standard Features

- Comprehensive model options provide comfort and support during prolonged periods of seated work
- Simple to operate height adjustment - via ring mechanism mounted on underside of seat
- Seat options: Upholstered seat or durable PU Upholstered seat features moulded foam for added comfort and is available in a wide range of upholstery options and colours
- Durable 5-star base (black only)
- Choice of castors
- Maximum user weight: 110kg (18st)

### Optional Features

#### Castors;

- Hard or soft wheel castor options available. Hard wheel castors are suitable for carpeted areas, soft wheel castors for hard floor surfaces.

#### Choose from the following options:

- Standard castors with no brakes
- Brake loaded castors - castors brake under the additional weight of a user. Without a user castors are free moving
- Brake unloaded castors - castors are braked without a user. When a user sits on the stool brakes are released, castors are free moving

## Olivia

Olivia is a beautiful seating solution for any space. A distinctive, contemporary yet retro-inspired silhouette features soft contoured edges and deep filled back, arm and seat cushions for supreme comfort.

### Standard Features

- Armchair, 2 & 3 seater mid back sofas
- Comfort seat foam

### Optional Features

- Loop or Straight leg
- Metal Underframe colour options
- Model options with fixed or removable seat
- Standard, M or X specification options
- Additional weighting options (Medium +20Kg & Heavy 40Kg) to limit misuse, increase stability and maximise safety
- Model options with Plus+ fully sealed upholstery to prevent concealment and for ease of cleaning

### Finishes

- Onyx
- Anthracite
- Stone

## Quad

Quad is an easily configurable modular seating range, scalable using a palette of elements to create different room layouts in reception, waiting or outpatient areas.

### Standard Features

- 90° curved or straight seat options, end arm(s), curved fabric end seats and wood finish table ends
- Maximum load 160kg (25st) per person

### Optional Features

- Customise from a wide range of fabrics to enhance any space

### Finishes

- Onyx
- Anthracite
- Stone

## Roku® Asuka

With low-back design and generous seating area Roku® Asuka features a fully sealed single piece seat and boarded underside and a low overall height to ensure clear lines of sight for care staff.

Part of the Roku® family.

### Standard Features

- Low back design ensures clear line of sight
- Complete upholstery, fully sealed single piece seat
- Boarded underside
- No visible staples or back tacking
- Flowing design with rounded corners - difficult to pick up and grasp

### Optional Features

- Additional weighting options

## Linx

Linx is a modular, highly configurable seating range with soft appearance and feel, characterised by sumptuous levels of comfort.

Ideal for all areas including lounge, quiet spaces and reception areas, including acute adult, CAMHS and young adults.

### Standard Features

- Modular design offers an infinite number of configurations
- Creates a truly flexible space, ideal for socialising and interaction
- Contemporary design
- A low overall height provides clear lines of sight for care staff
- Solid Beech inset glides
- X Specification as standard

### Optional Features

- Air piping
- Additional weighting
- Arm option

## Murano

Designed for challenging environments with its smooth organic shape and ultra-contemporary design, Murano eliminates angles and creates a softer and calmer visual form.

Ideal for all areas including lounge, quiet spaces, de-escalation and reception areas.

### Standard Features

- Excellent comfort with smooth organic shape, waterfall seat and ultra-contemporary design
- X specification - Extreme construction; fully boarded, non retractable security screws and bolts, no visible staples
- Fully sealed upholstery to prevent concealment and for ease of cleaning
- Anti-ligature flowing design with rounded corners - difficult to pick up and grasp
- Glide foot (plastic glides, secured using security screws)

### Optional Features

- Additional weighting

## Roku®

An innovative, hexagonal, rotationally moulded chair designed by Ben Grafton, with complete anti-ligature, concealment free design.

Weighted, durable and suitable for multi-environment use, both indoor and outdoor, including high security.

### Colour options:

				
Iron Gate	Slate Green	Sage Green	Marine Teal	Cornflower Blue
				
Misty Blue	Chateau Grey	Warm Sand	Heather Purple	Fresh Papaya

### Standard Features

- Ergonomically designed back and armrest provide excellent support and levels of comfort
- Suitable for multi-environment use - indoor and outdoor
- Wipe clean surfaces for infection control
- Standard weighting 30kg to limit misuse and maximise safety
- Hexagonal shape offers complete anti-ligature and concealment free design with rounded edges and no sharp corners
- Self-righting assist
- Excellent chemical resistance
- Testing BS EN 16139:2013 strength & stability; severe contract use. All moulded Roku® products are compliant with UL94 HB standard for flammability.

### Optional Features

- Additional weighting

## Roku® Rocker

With its gentle rocking motion and smooth organic lines, the Roku® Rocker has been thoughtfully designed for use in challenging environments.

The generously proportioned seat and ergonomic design help promote comfort and a sense of security and wellbeing, while the calming rocking action helps relieve tension and support relaxation.

### Colour options:

### Standard Features

- Smooth, high impact polyethylene for maximum durability
- Stain-resistant, seamless and easy to clean for longevity and easy maintenance
- Ligature resistant design
- Smooth, round profile edges ensure enhanced safety and security
- Extremely robust, heavy duty construction
- Models with upholstered seat pad (recommended for supervised spaces)
- Non-upholstered model suitable for covered outdoor spaces
- UV protection with UV-20+ stabiliser
- Meets UL94 HB flammability certification

### Optional Features

- HDPE runners
- Weighting options
- Soft colour palette for a calming aesthetic
- Contract fabric options

## Roku® Dining

Roku® Oyster is an extremely durable, heavy duty dining table collection for challenging environments.

Roku® Kimi moulded chair is a versatile, durable, multi-environment chair designed for dining, bedroom, reception, meeting & visiting rooms, activity, outdoor & high security.

Colour options:

### Standard Features

- High impact polyethylene continuously moulded for safety and durability
- Soft, radiused corners with no sharp edges for safety and security
- Table features heavy duty metal to metal mechanical connections
- Security screws
- Pick resistant polyethylene
- 100% Recyclable material

### Optional Features

- Iron Gate finish (standard). Minimum order quantities apply on non-standard colours (MOQ of 5 units per product ordered). Additional colour options available Cornflower Blue, Heather Purple, Slate Green, Chateau Grey, Warm Sand, Sage Green & Misty Blue).
- Additional Weighting

## Portobello Coffee Tables & Stools

Portobello is a distinctive range of security stools and coffee tables with extreme specification as standard, for multi-environment use including high security.

### Standard Features

- Vinyl wrapped table top (25mm) with soft radiused edges
- Nylon feet (with security screws) allows easy repositioning
- Fully upholstered sides with double stitched seams for safety
- Due to its size, the rectangular coffee table is difficult to pick up
- Stool models are fixed seat
- All upholstery is fixed. On all table models, all side panels are covered. On all stool models, sides and top are covered in a one-piece cover
- Models are unweighted as standard
- X-Spec as standard
- Constructed using 12mm plywood

### Optional Features

- Additional weighting: Medium (+20kg) and Heavy (+40kg) weighting options
- Top finish options

## Coast Dining

The distinctive underframe takes centre stage on Coast. Details such as interlocking triangular leg shapes and table-top with discreet 47-degree edge detail elevate this range.

The bolted table-top uses concealed security fixings, while braced leg sections and mortise and tenon joints ensure strength and stability - perfectly suited to meet the demands of challenging environments.

### Standard Features

- Interlocking triangular legs lock into base frame and top frame for added strength
- Tough, durable 36mm laminate top with 47-degree edge reference
- Soft radiused corners for added safety
- Easy clean, scratch and heat resistant laminate top
- Solid, 70mm x 70mm beech underframe
- Mortise and tenon construction for added strength
- Bolted table-top with security fixings for added safety (covered, non-visible)

### Optional Features

- Wood finish options

## Eos

At the heart of Eos is a distinctive table collection that creates a sense of presence in any space. With the unparalleled strength offered by its central steel column, Eos is designed to meet the demands of challenging environments.

### Base Finishes

-  Onyx
-  Anthracite
-  Stone
-  White

### Standard Features

- Tough, durable 36mm top
- Easy clean, scratch and heat resistant top
- 260mm steel column and base plate, with colour options
- Bolted table-top with security fixings for added safety

### Optional Features

Roku® Bedroom is a secure, extremely durable one-piece rotationally moulded bedroom collection designed for challenging environments.

Smooth, high impact polyethylene with rounded corners and no sharp edges is continuously moulded for safety and durability. Supplied with a lifetime manufacturing warranty.

Colour options:

# Project Focus

NHS Rehabilitation Centre

NHS Mother & Baby Unit

A series of thin, white, wavy lines that flow across the page from left to right, creating a sense of movement and depth. The lines are layered, with some appearing in front of others, and they vary in amplitude and frequency, resembling a stylized wave or a series of overlapping curves.
