

**TDC001X, TDC002X, TDC003X,
TDC004X, TDC005X**

The distinctive underframe takes centre stage on Coast. Details such as interlocking triangular leg shapes and tabletop with discreet 47-degree edge detail elevate this range.

The bolted table-top uses concealed security fixings, while braced leg sections and mortise and tenon joints ensure strength and stability - perfectly suited to meet the demands of challenging environments.

Standard Features

- Interlocking triangular legs lock into base frame and top frame for added strength
- Tough, durable 36mm laminate top with 47-degree edge reference
- Soft radiused corners for added safety
- Easy clean, scratch and heat resistant laminate top

- Solid, 70mm x 70mm beech underframe
- Mortise and tenon construction for added strength
- Bolted table-top with security fixings for added safety (covered, non-visible)

Optional Features

- Wood finish options (contrast finishes available)

Technical Information

Dining Table Dimensions:

TDC001X -
Coast 1100x1100
4 Seater Dining Table; X-Spec
Weight: 54.5Kg

TDC002X -
Coast 1440x960
4 Seater Dining Table; X-Spec
Weight: 62.5Kg

TDC003X -
Coast 2000x960
6 Seater Dining Table; X-Spec
Weight: 80Kg

TDC004X -
Coast 2560x960
8 Seater Dining Table; X-Spec
Weight: 99.5Kg

TDC005X -
Coast 3000x960
10 Seater Dining Table; X-Spec
Weight: 114Kg

3 R's

Teal is committed to continually improving the sustainability of all environmental aspects within our business.

To meet both international standards and our own environmental targets we apply the three R's principle

Reduce, Reuse and Recycle.

Whilst recycling is the element which receives the most exposure it is actually the last option available and should never be the prime target in anyone's battle to reduce waste.

It is our duty as individuals and as a company to initially attempt to Reduce usage. Then we should look to Reuse wherever possible and finally, only after these two processes have been exhausted, should we consider Recycling.

Life cycle understanding

Waste elimination

Recycled content innovation

End of life solutions
